Col. H. C. Rizer
United States Geological Survey
Washington, D. C.

Dear Sir:

Dr. George F. Kunz of Tiffany & Co., New York, has suggested that we write to you to inquire if we might secure a copy of the Bibliography of Platinum by Howe and Holz, published recently by the Geological Survey. As you perhaps know, there have been one or two cases of the use of platinum for coinage purposes, and we frequently have inquiries in regard to platinum and its use, which our Library is not equipped to answer.

Very truly yours,

Assistant to Curator.
